To,
The Institutions of Engineers
Nagpur Chapter
Nagpur

Subject: Request to provide Technical collaboration for "Three days National level workshop on Cloud Virtualization"

Respected Sir,

We are glad to inform that the Department of Computer Science & Engineering of our institution is organizing "Three Days National level workshop on Cloud Virtualization" for students and Faculty members at Tulsiramji Gaikwad-Patil College of Engineering & Technology, Nagpur from 24th August 2015 to 26th August 2015.

We request you to kindly extend technical collaboration of IEI by granting and permit us to use the LOGO of IEI on the publicity material to be released. It is to further inform that the department of Computer Science & Engineering is having IEI student's Chapter.

It is request you to provide the technical collaboration and the consent letter for the same.

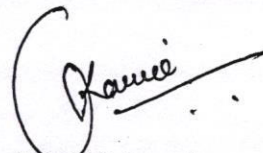

Thanking you in anticipation of your co-operation.

Your's sincerely,

Prof. Roshni Talmale

Report on

Three Days All India Workshop on "Cloud Virtualization"

Name of Event: Three Days All India Workshop on "Cloud Virtualization"

Date of Event: 24th - 26th August 2015

Event Coordinator: Prof. Vishal Tiwari and Prof. G. A. Kumar

Introduction:

Department of Computer Sciences and Engineering organized three days all India Level workshop on Cloud Virtualization in association with IE(I) , Nagpur Local Chapter on date 24th – 26th 2015 . The expert of the workshop was Mr. Madan Tiwari, Senior Developer, Mastech Computers Pvt. Ltd, Nagpur.

Aim:

This workshop was aimed to understanding of fundamental of cloud computing and how to implement private cloud in our lab. The objectives of this workshop were utilizing the services of various public clouds too.

Objective:

- To highlight the importance of virtualization in cloud computing in Computer Science, Electrical Engineering, Bioinformatics and various other fields.
- To offer a better understanding of the challenging— security issues and design issues on virtualization in cloud computing.
- To discuss security issues in cloud computing— which are essential in the Computer industry today.

Subject: Thanks Letter.

Respected Sir,

We are grateful to you for your kind consent as an Expert for **Two Days** "**Workshop on Research Methodology**". We are thankful to you for valuable time that you spared for our students and faculty members.

We highly appreciate and value your presence here as an Expert.

Thanking You.

Session: 2015-16

Department of Computer Science & Engineering

Report on

Date: 15/02/2016

Two Days Workshop on Research Methodology

Name of Event: Workshop on Research Methodology

Date of Event: 12-02-2016 to 13-02-2016

Event Coordinator: Prof. Monika Jaiswal and Prof. Jiwan Dehankar

Introduction:

Research not only generates useful insight and confidence but also acts as a stimulant for academic growth. Sound conceptual understanding of various research methods, research instruments, tools and techniques is an essential prerequisite for conducting empirical research. Two days workshop on "Research Methodology" held under the banner of IEI (Institution of Engineers) India during 12th February & 13th February 2016. The participants were from different areas like Engineering. All of the participants who attended this workshop were research scholars, faculty who were directly involved in research process.

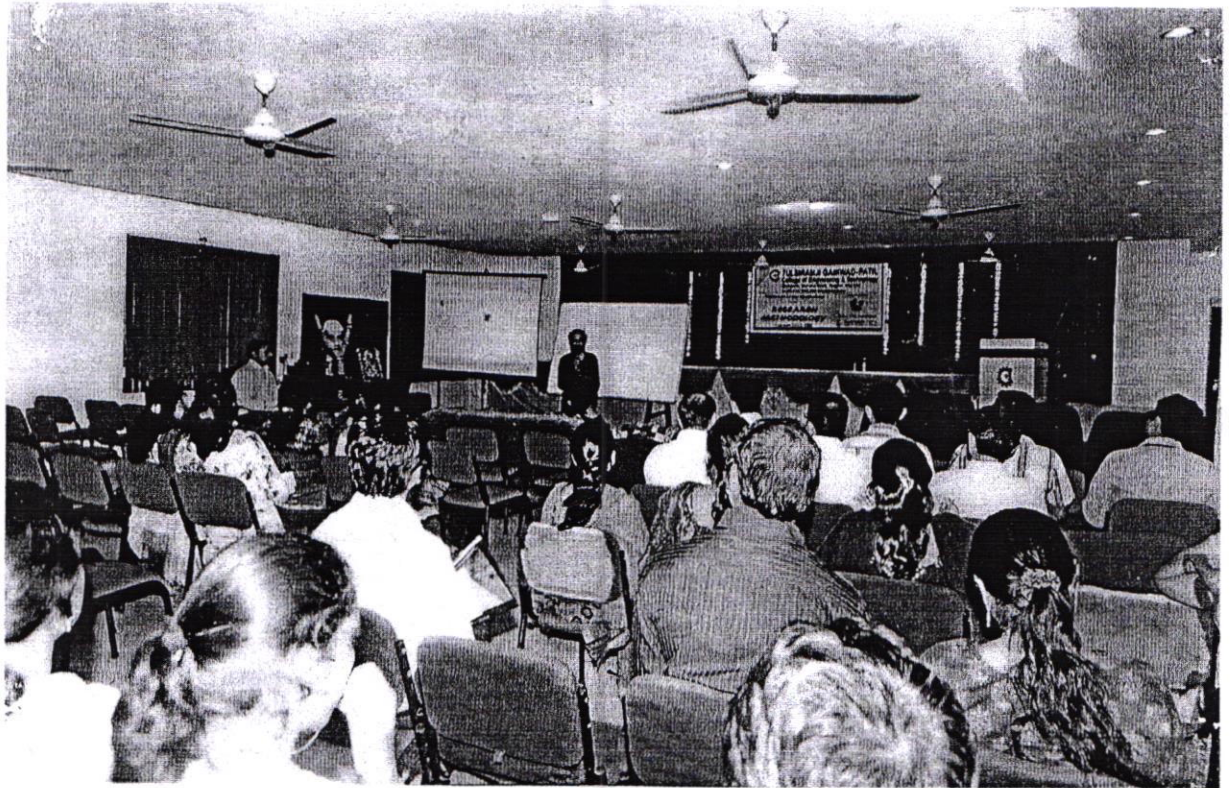

Aim:

The aim of the workshop was to facilitating the process of understanding concepts and trends in Research methodology and to equip the research scholars with set of skills and potentiality to undertake the research very effectively.

Objective:

- To familiarize participants with basic research methods (both qualitative and quantitative)
- To enhance knowledge base and develop skills of participants for selecting appropriate research technique
- To provide guidelines about project report, dissertation, thesis, manuscript and project proposals writing
- To provide the participants with a broad overview of design of experiments techniques

Glimses of Event: Date : 13/02/2016

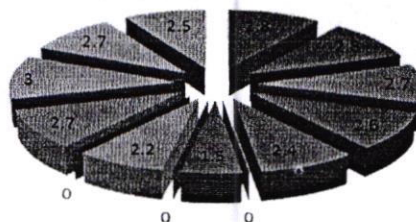

Two Days Workshop on "Research Methodology"

Acknowledgement:

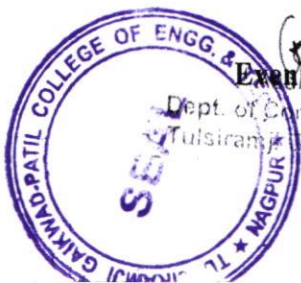

On behalf of Computer Sciences and engineering department we sincerely thank to Dr Arjun Mane, Assistant Professor, Institute of Digital Forensic, Nagpur for accepting our invitation for expert speaker and conducting workshop on Research Methodology.

Workshop on "Network Infrastructure"

Aim:- The main objectives of hands on workshop on "Network Infrastructure" are to give additional help to faculty and improve their learning ability.

Introduction:

Information Technology department of TGPCET, have organized two day Workshop on "Network Infrastructure" for faculty Member on 23th July 2015 and 24th July 2015.

There were total 25 participants, who attended the workshop.

The expert was mr. Raj Arora invited from Revat Network Pvt. Ltd., Nagpur.

Objective of Workshop:

The main objectives are:

- 1) To enhance the operational practices with a more strategic and business -oriented approach.
- 2) To help the decision making in the selection of appropriate solutions for network deployment and operation.
- 3) To analyze most adequate tools to support and optimize the overall process.

Outcomes:-

The outcomes of Workshop are:-

- 1) Able to define an overall planning process of Network.
- 2) To carry out services- demand forecasts .
- 3) Analyse network alternatives and evolution.

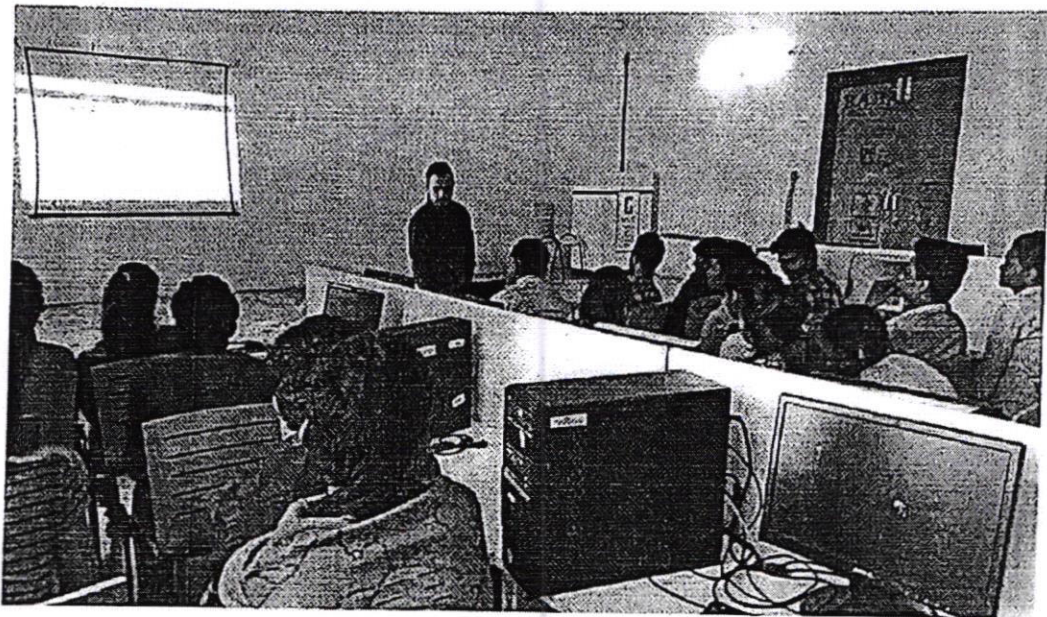

Tulsiramji Gaikwad-Patil College of Engineering and Technology

Wardha Road, Nagpur-441 108

Department of Information Technology

- 4) Define proper techno-economical plans based on business feasibility and given quality
- 5) Able to analyse role of network planning tools in the planning and operational process

**Report
on
WORKSHOP ON VLSI TESTING**

Date: 8th August ,2015

Department of Electronics & Communication Engineering organizing a workshop on "VLSI TESTING" for Teaching staff on 8th August ,2015.

Aim: To understand how to develop the VLSI testing.

Objective:

1. To understand the fabrication process of CMOS technology.
2. To teach fundamentals of VLSI circuit design and implementation using circuit simulators and layout editors.
3. To study various problems due to VLSI technology advancement.
4. To study digital circuits using various logic methods and their limitations.
5. To highlight the circuit design issues in the context of VLSI technology.

Introduction:

Department of Electronics & Communication Engineering under ISTE has Conducted Workshop on VLSI testing. In this workshop both theory and practical session are covered.

The course gives basic knowledge of manufacturing tests is to validate that the product hardware contains no manufacturing defects that could adversely affect the product's correct functioning.

Tests are applied at several steps in the hardware manufacturing flow and, for certain products, may also be used for hardware maintenance in the customer's environment. The tests are generally driven by test programs that execute using automatic test equipment (ATE) or, in the case of system maintenance, inside the assembled system itself. In addition to finding and indicating the presence of defects (i.e., the test fails), tests may be able to log diagnostic information about the nature of the encountered test fails. The diagnostic information can be used to locate the source of the failure.

In other words, the response of vectors (patterns) from a good circuit is compared with the response of vectors (using the same patterns) from a DUT (device under test). If the response is the same or matches, the circuit is good. Otherwise, the circuit is not manufactured .

Outcome :-:

1. Knowledge and understood of demonstrate a clear understanding of CMOS fabrication flow and technology scaling.
2. Demonstrate an understanding of working principle of operation of different types of memories.
3. Demonstrate an understanding of working principles of clocking, power reduction and distribution.

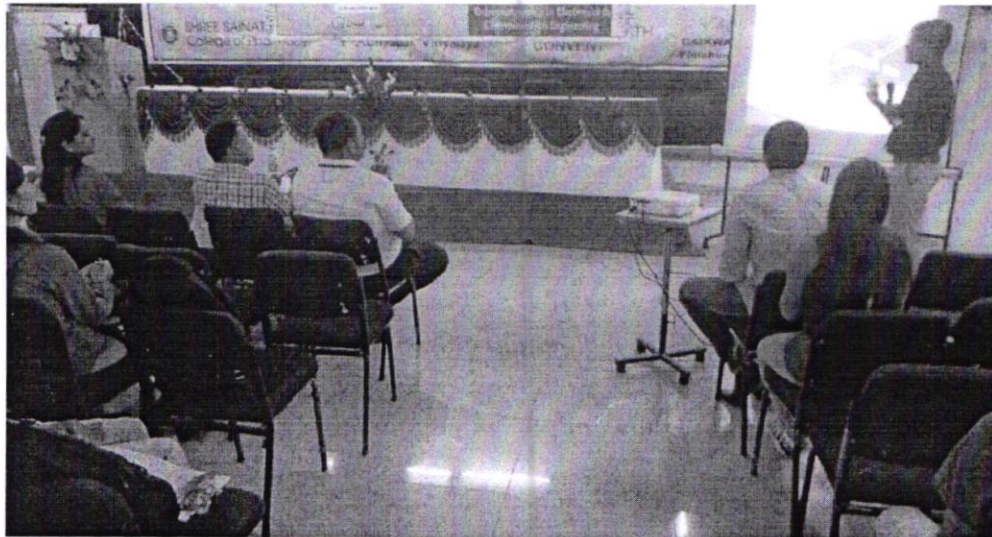

4. Realize logic circuits with different design styles.

The following PO's have been accomplished:

This Workshop helps the Teaching Staff to learn about

1. Engineering knowledge.
2. Problem Analysis.
3. Design/development of solutions.
4. Modern tool usage.
5. Communication.
6. Individual and team work
7. The Engineer and society

Glimpses of Event:

***VLSI testing Program by S. Ghormade Electro-Tech Engineer Service Pvt.
Ltd ,Nagpur***

Conclusion:

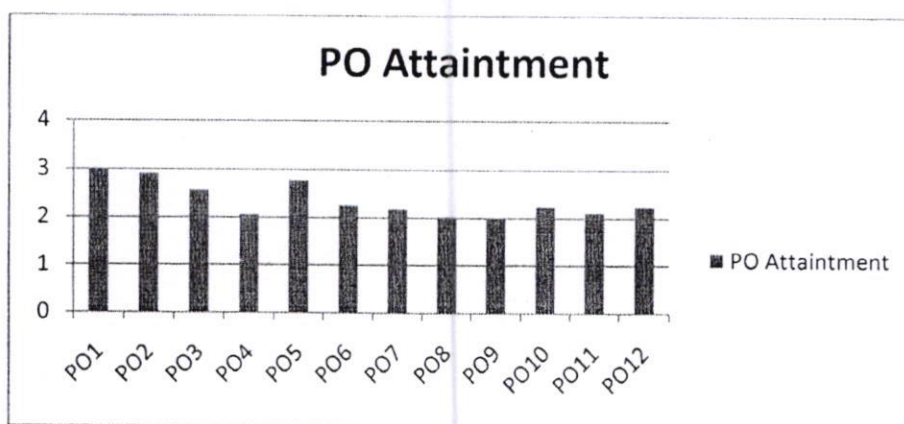

The workshop started with opening remark of Head of the Department, Electronics and Communication Engineering, and a little more added by Director Mr. S. Ghormade.

Workshop started with introduction of VLSI followed by brief knowledge about VLSI testing. Workshop ended with Certificate distribution and the vote of thanks proposed by program coordinator.

Feedback Analysis:

WORKSHOP ON MULTISIM & NI MYRIO TOOLS OF NATIONAL INSTRUMENTS

Date: 18th Aug 2015

Department of Electronics & Communication Engineering under IEI student chapter have organized a Workshop on topic "Multisim & NI myRIO Tools of National Instruments" by Mr. Sameer Taksande, Project Leader, Arav Technology, Nagpur.

Aim:

To understand how to develop the Multisim & NI myRIO Tools of National Instrument..

Objective:

1. To make the students aware of Multisim & NI myRIO Tools of National Instrument deployed on Embedded system.
2. To know the importance of Satellites.
3. To understand the working of remote sensing is the process of detecting and monitoring the physical characteristics of an area by measuring its reflected and emitted radiation at a distance from the targeted area.
4. To motivate students to achieve their goals.

Introduction:

Department of Electronics & Communication Engineering under IE(I) has Conducted Workshop on IoT application using Arduino in Collaboration with Electro-Tech Engineer Service Pvt. Ltd. Nagpur. In this workshop both theory and practical session are covered.

The course gives basic knowledge of in Multisim & NI myRIO Tools of National Instruments. How to understand the working of Circuit Design using Multisim, 8051 Programming Using Multisim, Filter and Circuit analysis using Multisim, Graphical programming Using LabVIEW, Databases generation using LabVIEW, 2D & 3D graphs and plot using Lab, Program Installer and Exe Design Using LabVIEW, Modularity, State Machine Algorithm using LabVIEW, Signal Processing, Image Processing, Control System and Fuzzy logic, NI myDAQ, A to D and D to A conversion, Sensor interfacing (Potentiometer, Pressure sensor, Proximity sensor, IR Sensor, Temperature sensor, acceleration sensor)

Outcome :-:

1. Outcome of this lecture is analyzed by the feedback forms based on few questions and answered by students. The analysis report of guest lecture is attached here with. On the basis of feedback forms it is observed that students understand to analyze the problem to reach and design or development of the solution along with managing project efficiently.

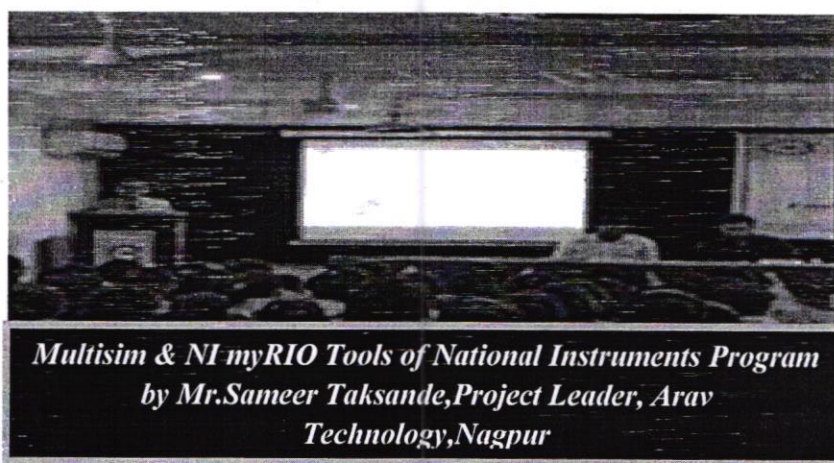

The following PO's have been accomplished:

This Workshop helps the Teaching Staff to learn about

1. Engineering knowledge.
2. Problem Analysis.
3. Design/development of solutions.
4. Modern tool usage.

Glimpses of Event:

Session -2015-2016

Even Semester

Date:17/1/2016

Notice

All the Teaching Staff are hereby inform that department of Electronics and Communication are organizing a Workshop on "PCB Designing Tool". By **Ms.Renuka Wekhande,Project Manager, S.M.Technology,Nagpur** arranged under IE(I) faculty chapter on 15th & 16th Feb ,2016.Faculty are requested to register their name on or before 13th Feb,2016 to Mr. Mayur Nannaware ,Co-ordinator. The certificates will be issued by institute to all the staff members.

All the staff are requested to take a note of it.

Course duration : 15th & 16th Feb ,2016.

Time of workshop : 10:00 a.m. to 5:00 p.m.

Venue : A Wing Vijay Bhatkar Hall, TGPCET

**Report
on
WORKSHOP ON PCB DESIGNING TOOL**

Date: 16th Feb 2016

Department of Electronics & Communication Engineering organizing a workshop on “**PCB Designing Tool**” for Teaching staff on 15th & 16th Feb, 2016.

Aim: To understand how to develop the PCB Designing .

Objective:

1. The workshop was aimed to provide knowledge about Complete PCB Designing using simulation tool to test electronics & electrical circuit in software environment and also its Fabrication, PCB design software named Cad soft EAGLE & to make physical PCB at home so that any student can make project on his own.
2. Electronic circuits in engineering and industry are normally manufactured by using printed circuit boards (PCBs). These boards are made up of special materials that do not conduct electricity such as fiber and glass. The circuits are designed on the boards with copper tracks instead of wires for the conduction of electricity between the electronic components.
3. The electronic components are fixed in their respective positions by drilling holes on the board, placing the components and then soldering them in appropriate positions so that the copper tracks and components together form a circuit. The printed circuit boards used in all electronic products such as automotives, wireless devices, Robotic applications, etc., offer quick functioning, access, control, monitoring and precise and exact results when compared to other wiring methods based devices. The below figure shows how the circuit is arranged on a PCB with copper layer.

Introduction:

Department of Electronics & Communication Engineering under IE(I) has Conducted Workshop on PCB Designing Tool. In this workshop both theory and practical session are covered.

The course gives basic knowledge of design on printed circuit board manufacturer, there are numerous ways available for designing PCBs. This circuit board design can be manufactured as bulk using several machines in PCB fabrication industries including drilling, punching, plating and final fabrication processes that are performed through highly automated machines. Laser drilling with CNC machines, automatic plating machines, strip etching machines, and use of optical inspection equipments, flying probe testers for electrical testing of printed circuit board process result in high-quality PCBs (with a greater production yield). The electronic components are fixed in their respective positions by drilling holes on the board, placing the components and then soldering them in appropriate positions so that the copper tracks and components together form a circuit. The printed circuit boards used in all electronic products such as automotives, wireless devices, Robotic applications, etc., offer quick functioning, access, control, monitoring and precise and exact results when compared to other wiring methods based devices. The below figure shows how the circuit is arranged on a PCB with copper layer.

Tulsiramji Gaikwad-Patil College of Engineering and Technology
Wardha Road, Nagpur-441 108
Department of Electronics & Communication Engineering

Outcome :-:

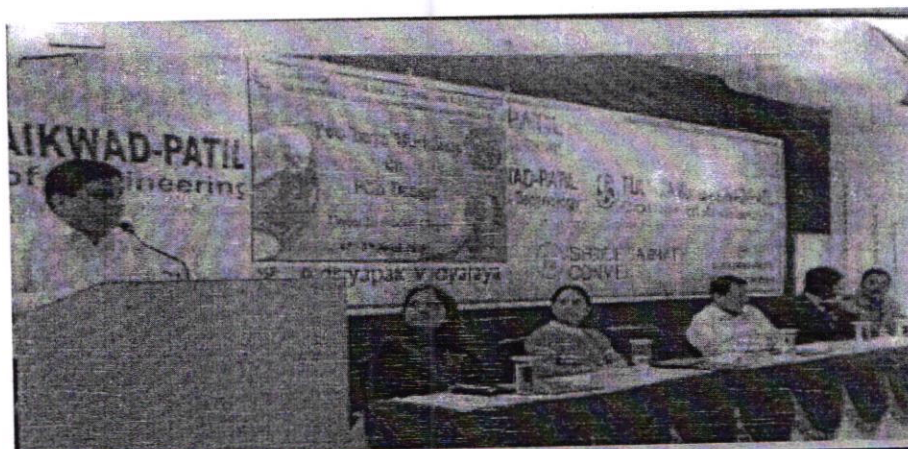

1. Knowledge and understood and recognize the electronic components.
2. Identify codes of components.
3. Learned the basics of Components function test.
4. Design using computer software analog, digital and hybrid circuits.
5. Design a printed circuit board.
6. Implement a printed circuit board.

The following PO's have been accomplished:

This Workshop helps the Teaching Staff to learn about

1. Engineering knowledge.
2. Problem Analysis.
3. Design/development of solutions.
4. Modern tool usage.

Glimpses of Event:

PCB Designing Tool Program by Ms. Renuka Wekhande, Project Manager, S.M. Technology, Nagpur

Conclusion:

The workshop started with opening remark of Head of the Department, Electronics and Communication Engineering, and a little more added by Director Mr. S. Ghormade. Workshop started with introduction of IoT followed by brief knowledge about Arduino. Workshop ended with Certificate distribution and the vote of thanks proposed by program coordinator.

Session: 2015-16

Report on

One Day Workshop on NDT

Name of Event: One Day Workshop on NDT

Date of Event: 22-08-2015

Event Coordinator: Prof. Priyanka Kamble

Introduction:

Department of civil engineering organized One Day Workshop on NDT under Indian society for technical education banner. Non- Destructive Testing (NDT) is a wide group of analysis techniques used in science & Technology industry to evaluate the properties of material, component or system without causing damage. This workshop is conducted for today's M-tech Scholars and faculty members where participated in the workshop.

Aim:

The purpose of this course is to help student and faculty members to analysis techniques used in science & Technology industry to evaluate the properties of material, component or system without causing damage.

Objective:

- 1.To establish homogeneity of concrete.
- 2.Comparision of concrete quality.
- 3.Detection of cracks, voids & other imperfections.
4. Monitoring changes in concrete with passage of time.
5. Assessment of existing structure for rehabilitation planning.
- 6.As an alternative testing method if cube results raise doubt about concrete quality (Postmortem)

Event Details:

Mr.Vijay Ranjan conducted the session and explain about NDT application in civil engineering.

Department of Civil Engineering

It is easy to learn and covers all aspects of Civil Engineering. Non-destructive testing is a descriptive term used for examination of material and components in a such a way that allow materials to be examine without changing or destroying their usefulness.

Outcomes:

- 1.The NDT is to inspect a component in a safe, reliable & cost effective manner without causing damage to the equipment or shutting down plant operations.
2. This is in contrast to non-destructive testing where the part being tested is damage or destroyed during the inspection process.

Attainment of PO:

PO 1.Engineering knowledge
PO 2.Problem analysis
PO 3.Design/Development of Solutions
PO 5. Modern Tool usage
PO 6.The Engineer And Society
PO 9.Individual and teamwork
PO 11.Project Management and Finance
PO 12.Life-long learning

Conclusion:

The course provided in NDT provides with a basic working knowledge of analysis techniques used in science & Technology industry to evaluate the properties of material, component or system without causing damage. This is in contrast to non-destructive testing where the part being tested is damage or destroyed during the inspection process.

Glimpses of Event:

Department of Civil Engineering

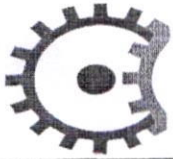

One Day Workshop on NDT

Acknowledgement:

On behalf of Civil Engineering department we sincerely thanks to Mr. Vijay Ranjan for accepting our invitation for expert speaker and conducting One Day Workshop on NDT.

Subject: -Invitation as a Expert For One Day Workshop on NDT

Respected Sir,

On the behalf of Civil Engineering Department, Tulsiramji Gaikwad- Patil College of Engineering & Technology, Nagpur (TGPCET). We are pleased to invite you as an Expert for One Day Workshop on NDT. The Schedule of Program is from 22 Aug 2015 at Tulsiramji Gaikwad Patil College of Engineering & Technology, Wardha Road, Nagpur.

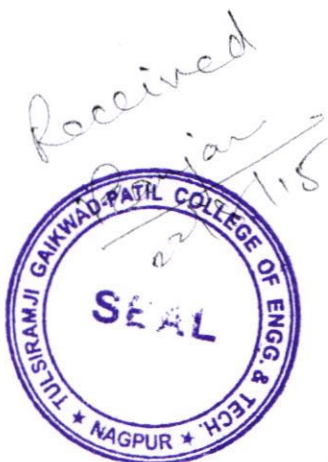

Please Do Find a day out of your busy schedule and convey us your acceptance and oblige.

Thanking You !

Respected sir,

The Department of Mechanical Engineering is organising "Faculty Induction Program on Institutional Management & Administrative Procedures" from **16/12/2015 to 17/12/2015** for the faculties and industrialist. The purpose of this conference is to provide the knowledge of Institutional Management & Administrative Procedures which beyond their curriculum and it will help the faculties in future

I humbly request you to kindly give us the permission for the same

Thanking you!

Subject: Invitation for the august presence on **16/12/2015** for the Inauguration of the Faculty Induction Program on Institutional Management & Administrative Procedures" from **16/12/2015** to **17/12/2015**

Respected Sir,

Warm Regards from Tulsiramji-Gaikwad Patil College of Engineering and Technology (TGPCET), Nagpur

TGPCET is one of the most promising and upcoming Engineering Institutions in Vidarbha region. The college is a part of Gaikwad-Patil Group of Institutions which caters to cultivating students in various fields such as Engineering, Architecture, Pharmacy, Education, etc. It comes under the umbrella of Rashtrasant Tukdoji Maharaj Nagpur University and is affiliated to AICTE.

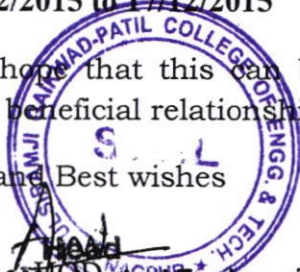

As a professional education institute involved in producing engineers, it is imperative for us that our students are industry relevant and ready. As such we feel the urge for high amount of student interaction with the industrial setup. Hence, we encourage our students to maximize their industry interaction in ways such as industrial visits, projects & Expert lectures. This helps them to get practical experience of theoretical knowledge that they acquire in their curriculum.

In our regular Mechanical Engineering Department student's "ROBUST- Forum & IEI Activity" we arrange the lectures of the Experts from the field so as to bridge the gap between theory and practical.

We are glad to inform that the Department of Mechanical Engineering organizing Faculty Induction Program on Institutional Management & Administrative Procedures" from **16/12/2015** to **17/12/2015**. The Faculties and Industrialist are expected to attend this workshop. In this workshop you are invited to grace the occasion by your presence during the Inaugural Function of Faculty Induction Program on Institutional Management & Administrative Procedures" from **16/12/2015** to **17/12/2015**

We also hope that this can be a beginning of a long lasting, professionally satisfying and mutually beneficial relationship between our organizations.

Regards and Best wishes

Report

FDP: "Faculty Induction Program on Institutional Management & Administrative Procedures" from 16/12/2015 to 17/12/2015

Introduction: The department of Mechanical Engineering has organized a Faculty Induction Program on Institutional Management & Administrative Procedures" from 16/12/2015 to 17/12/2015

Mr. Ashish Khole (HR-TAL Manufacturing, Nagpur) was the Keynote speaker for the FDP.

Aim: To understand the Effective Modes of Student Assessment and Evaluation.

Objective: 1) To aware the participants from academicians about Institutional Management & Administrative Procedures

2) To know about scope of Institutional Management & Administrative Procedures

Lecture Details:

Mr. Ashish Khole (HR-TAL Manufacturing, Nagpur) explained in this session about his knowledge in Institutional Management & Administrative Procedures

Mapping of lecture with POs:

- 1) Engineering knowledge
- 2) Problem analysis.
- 3) Design/ Development of solutions.
- 4) Conduct investigations of complex problems.
- 5) Modern tool usage.
- 6) The Engineer and Society.
- 8) Ethics.
- 9) Individual and team work.
- 10) Communication
- 11) Project Management and Finance.
- 12) Lifelong learning.

Outcomes of FDP: Outcome of this FDP is analyzed by the feedback forms based on few questions and answered by Participants. The analysis report of conference is attached here with. On the basis of feedback form it is observed that participants understood the concept of Institutional Management & Administrative Procedures

Conclusion: The FDP is started with opening remark of head of the department, Mechanical Engineering and Presidential speech was given by the principal, TGPCET, The vote of thanks proposed by Program Coordinator.

Acknowledgement: On the behalf of Mechanical Engineering Department we sincerely Thank Mr. Ashish Khole (HR-TAL Manufacturing, Nagpur), for accepting our invitation and delivering an informative knowledge on Institutional Management & Administrative Procedures.

Workshop: "Four Days All India Workshop on Recent Advancement in Internal Combustion Engine" from 26/08/2015 To 29/08/2015

Introduction: The department of Mechanical Engineering has organized a Four Days All India Workshop on Recent Advancement in Internal Combustion Engine" from 26/08/2015 To 29/08/2015

Mr. Sanjay Hurde (Zonal Training In- Charge Midland Diesel Services Pvt.LTD) was the chief Guest and Mr. Chetan Dandekar (Manager, Meeraj Honda) was the Keynote speaker for the Workshop.

Aim: To understand the Advancement in Internal Combustion Engine.

Objective: 1) To aware the participants from academicians about Advancement in Internal Combustion Engine

2) To know about scope of Advancement in Internal Combustion Engine

Lecture Details:

Mr. Sanjay Hurde (Zonal Training In- Charge Midland Diesel Services Pvt.LTD) explained in this session about his knowledge in Advancement in Internal Combustion Engine and Mr. Chetan Dandekar (Manager, Meeraj Honda) explain the scope of Advancement in Internal Combustion Engine

Mapping of lecture with POs:

- 1) Engineering knowledge
- 2) Problem analysis.
- 3) Design/ Development of solutions.
- 4) Conduct investigations of complex problems.
- 5) Modern tool usage.
- 6) The Engineer and Society.
- 8) Ethics.
- 9) Individual and team work.
- 10) Communication
- 11) Project Management and Finance.
- 12) Lifelong learning.

Outcomes of FDP: Outcome of this Workshop is analyzed by the feedback forms based on few questions and answered by Participants. The analysis report of conference is attached here with. On the basis of feedback form it is observed that participants understood the concept of Advancement in Internal Combustion Engine

Conclusion: The FDP is started with opening remark of head of the department, Mechanical Engineering and Presidential speech was given by the principal, TGPCET, The vote of thanks proposed by Program Coordinator.

Acknowledgement: On the behalf of Mechanical Engineering Department we sincerely thanks Mr. Sanjay Hurde (Zonal Training In- Charge Midland Diesel Services Pvt.LTD) Mr. Chetan Dandekar (Manager, Meeraj Honda) for accepting our invitation and delivering an informative knowledge of Advancement in Internal Combustion Engine

Session 2015-16

Report on

One week Workshop on '**Recent Trends to Evaluate The life span for the Insulating Materials and Cables using High Voltage Techniques**'

Name of Event: Workshop on '**Recent Trends to Evaluate The life span for the Insulating Materials and Cables using High Voltage Techniques**'

Date of Event: 6/04/2016 - 10/04/2016

Event Co-Ordinator: Prof. Ravi Gulhane

Introduction:

Department of electrical Engineering organized six days faculty development program on 'Recent Trends to Evaluate The life span for the Insulating Materials and Cables using High Voltage Techniques' under ISTE banner. This workshop will explore knowledge about 'Recent Trends to Evaluate The life span for the Insulating Materials and Cables using High Voltage Techniques'. This workshop was conducted five days. Faculty members and M.Tech students are participated in the workshop.

Aim:

Purpose of this workshop is to help student and faculty members to understand the concept of 'Recent Trends to Evaluate The life span for the Insulating Materials and Cables using High Voltage Techniques'.

Objective:

1. Exposing participants to the basic principles of power electronics.
2. Providing practical knowledge of power system and power electronics.
3. Enhancing capabilities of participants in practical knowledge.

Event Details:

Dr. A.V.Giridhar, Assistant Professor, NIT, Warangal, Dr. K.Chandrashekar, Assistant Professor, NIT, Dr. D.P.Kothari, Director, TGPCET, Nagpur Dr. M.V. Aware, Professor, VNIT, Nagpur Dr. S. R. Bhide, Professor VNIT Nagpur conducted the session and explain about power system. This course included with theory and practical concept of power system and power electronics. Practical session was conducted to learn detail about power system.

Outcome:

1. Awareness of latest tools and technology
2. Explore topics for research purpose.

Session 2015-16
Report on
FDP on 'Recent trends in Power Electronics & Power Systems'
Name of Event: FDP on 'Recent trends in Power Electronics & Power Systems'

Date of Event: 23/02/2015-28/02/2015

Event Co-Ordinator: Prof. Ravi Gulhane

Introduction:

Department of electrical Engineering organized six days faculty development program on Recent trends in Power Electronics and Power System under Institute of Engineers India (IE(I)) banner. This workshop will explore knowledge about power electronics and power system. This workshop was conducted for two days. Faculty members and M.Tech students are participated in the workshop.

Aim:

Purpose of this workshop is to help student and faculty members to understand the concept of power electronics along with Power system in different areas.

Objective:

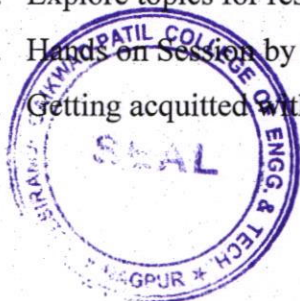

1. Exposing participants to the basic principles of power electronics.
2. Providing practical knowledge of power system and power electronics.
3. Enhancing capabilities of participants in practical knowledge.

Event Details:

Dr. H. M. Suryawanshi, VNIT, Nagpur, Dr. S.S. Bhatt, VNIT Nagpur, Prof. Altaf Badar, NIT, Warangal, Dr. M. Renge, RKNCE, Nagpur, Prof. S.Gawande, Assistant Professor, YCCE, S.P. Muley, PCE Nagpur conducted the session and explain about power system. This course included with theory and practical concept of power system and power electronics. Practical session was conducted to learn detail about power system.

Outcome:

1. Awareness of latest tools and technology
2. Explore topics for research purpose.
3. Hands on Session by industry experts.
4. Getting acquainted with latest trends and technology.

Report
on
"Interior management in classroom"

Date-21/09/2015

Department of Master of Computer Applications under ISTE has conducted Vocational Education Training on "Interior management in classroom" at TGPCET, Nagpur.

Aim-To Understand the healthy surrounding into the classroom.

Objective:

- 1.To give knowledge about color pattern of the classroom
- 2.To provide the practical guidance about with mike and without mike
- 3.To know the importance of language into the classroom
- 4.To know how the complete time management of the lecture
- 5.to motivate student to make new software for new user need

Introduction

Department of Master of Computer Applications under ISTE has conducted Vocational Education Training on "Interior management in classroom" at TGPCET, Nagpur where the theory as well as practical knowledge about classroom interior and how to develop it has been thought.

This course give basic knowledge about design of healthy surrounding into the classroom.

With this training student learn the basics about software and how to developed the software.

OUTCOME

The staff learns to the process and structure of classroom.

They learn how to invents ideas to solve problems generated into the classroom.

Staff learns the mechanism of online application processing.

How to use internet to grapes new ideas related to classroom and its applications.

Report on

One Day Workshop on Pedagogy development

Name of Event: One Day Workshop Pedagogy development

Date of Event: 8/10/2015

Event Coordinator: Dr. Harikumar Naidu

Introduction:

Department of Master of Business Administration organized One Day Workshop on Pedagogy development, teachers should consider when assessing teaching quality. We list these approaches, skills and knowledge in order of how strong the evidence is in showing that focusing on them can improve student outcomes. This should be seen as offering a 'starter kit' for thinking about effective pedagogy. Good quality teaching will likely involve a combination of these attributes manifested at different times; the very best teachers are those that demonstrate all of these features.

Aim:

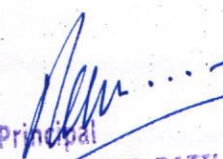

1. What makes 'great teaching'.
2. What kinds of frameworks or tools could help us to capture it.
3. How could this promote better learning.

Objective:

1. To understand the use of formative assessment/test for better growth like making question papers that test higher order thinking skills.
2. To understand using diagnostic tests to identify student weakness,
3. To be able to differentiate between concepts, skills and subject knowledge.
4. To be able to understand importance of Collaborative Research and Innovation start-up,
5. To understand the methodology to inculcate Entrepreneurship skills in the students.
