

Tulsiramji Gaikwad-Patil College of Engineering and Technology

Wardha Road, Nagpur - 441108

Accredited with NAAC A+ Grade

Approved by AICTE, New Delhi, Govt. of Maharashtra

(An Autonomous Institute Affiliated to RTM Nagpur University, Nagpur)

Department of Master in Computer Application

Course Name: MCA31105 Internet of Things (IoT)

MCA31105	Course Outcomes
CO1	Students will understand IoT's concept and layered architecture, and the benefits and challenges of IoT-based applications.
CO2	Students will analyze various communication technologies and application protocols for IoT.
CO3	Students will understand the IoT programming environment. Understand data acquisition and action using programs using different sensors and actuators
CO4	Students will understand different IoT databases. Learn to analyze the sensor data using various data analytics methods
CO5	Students will study the IoT-based solutions for simple real-world problems.
