BSH32302: Numerical Methods for Engineers

	Course Outcomes	**CL**
BCE32302.1	**Analyze** numerical techniques to find the roots of equations different types of equations	4
BCE32302.2	**Apply** the knowledge of Numerical techniques to solve ordinary differential equations in engineering problems.	3
BCE32302.3	**Formulate** simple optimization problem and learn to solve it by Graphical method and Simplex method.	6
