ECE Department organized a One Day Workshop on “Embedded System & IOT” under Invictus Forum in association with ISTE and Institution of Engineers (India).

May 15th: ECE Department organized an One Day Workshop on “Embedded System & IOT” under Invictus Forum in association with ISTE and Institution of Engineers (India). Workshop conducted by Mr. Dinesh Tundalwar, Director, MIT Infotech & Solution, Nagpur. The expert gave detailed information about the embedded system architecture, to write the software for the processor, debug the software, to interface peripherals with the processor. The uses of embedded systems are virtually limitless, because every day new products are introduced to the market that utilizes embedded computers in novel ways. In recent years, hardware such as microprocessors, microcontrollers and FPGA chips have become much cheaper.

So when implementing a new form of control, it's wiser to just buy the generic chip and write your own custom software for it. Sir explains Programming Software Keil and Programming Language “Embedded C” & Interfacing of Peripherals At the end of session doubt difficulties section has been conducted. Appreciated the faculty members for their inspirational work done and congratulated the students for active participation in the webinar as well as for the successful completion of the program. Efforts taken by Dr. S. Durairaj, Head of ECE Department, Program Coordinator Prof. Sandeep Thakre, Prof. Rohini Pochhi, proved instrumental in conducting the program successfully.
