
Department of Information Technology

Second Year (Semester-IV) B. Tech. Information Technology
BSH32401: Discrete Mathematics & Graph Theory

BSH32401	Course Outcomes
BSH32401.1	Solve Recurrence Relations, Generating Functions, Combinatorial Problems and Understand the concepts of Groups, Rings, Lattices.
BSH32401.2	Interpret Fuzzy Set Theory and Uncertainty Concept.
BSH32401.3	Analyze Computational Problems in Graph Theoretical Framework.
