Third Year (Semester-VI) B. Tech. Information Technology
BIT33602: - Artificial Intelligence and Machine Learning

BIT33602	Course Outcomes
BIT33602.1	Classify knowledge representation, problem solving, and learning methods of artificial Intelligence.
BIT33602.2	Discuss Knowledge and reasoning and its representation in artificial intelligence.
BIT33602.3	Illustrate the concepts of machine learning and deep learning.
BIT33602.4	Analyze supervised learning techniques including CNN, RNN, SVM, and decision trees.
BIT33602.5	Evaluate machine learning models using cross-validation and resampling techniques like bootstrapping.
