

## MAE1208- Experimental Stress Analysis

MAE1208	Course Outcomes
CO1	<b>Comprehend</b> the measurement techniques in understanding extensometers.
CO2	<b>Evaluate</b> the operating principles of strain gauges through problem solving.
CO3	<b>Apply</b> the knowledge of photo elasticity working principles in evaluating the problem statements.
CO4	<b>Understand</b> the basics of moirés method.
CO5	<b>Enumerate</b> different non destructive methods and its applications.
